STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total stocks of leaf tobacco lower than a year ago.

Leaf tobacco stocks in the United States and Puerto Rico totaled 4,531 million pounds as of April 1, 1972. This was a decline of 232 million pounds from the previous April 1. The 1971 crop was in stocks by April 1 with the exception of Maryland and some cigar tobacco. About 125 million pounds were marketed during the January-March quarter.

Flue-cured, burley, and cigar filler led the decline. Many domestic types, especially fire-cured and cigar filler, reached record lows for April 1. Imported tobaccos were lower partly due to an earlier dock strike.

Stocks as of April 1, 1972, included 1,009 million pounds of leaf tobacco under Government loan. This was 312 million less than a year ago. There were substantial reductions in flue-cured and burley, and fire-cured loan holdings were extremely low. These loan stocks were divded as follows:

flue-cured	646.1 million pounds
burley	344.3 million pounds
fire-cured	2.8 million pounds
dark air-cured	13.5 million pounds
cigar leaf	2.2 million pounds

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See table in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by grower cooperatives, which are considered dealers for stocks reporting purposes.

CIGARETTE LEAF STOCKS

All types decline.

Flue-cured stocks totaled 2,158 million pounds on April 1, 1972, a drop of 76 million pounds.

Holdings of burley at 1,534 million pounds were 94 million below the April 1971 inventory. One reason was a much smaller crop of only 472 million pounds which was in stocks by April 1.

Maryland inventories declined only 1.4 million pounds to 39.7 million, but it was a record low. The 1971 crop of 29.7 million is now being sold.

Stocks of foreign-grown cigarette and smoking tobacco totaled 376.7 million pounds--9 million below last year.

DARK TOBACCO STOCKS

All types at record lows for April 1.

Fire-cured stocks reported at 82.8 million pounds this April 1 were 5.2 million pounds below last year. Virginia fire-cured stocks were 11.7 million; Kentucky-Tennessee Eastern District, 61.2 million; and Western District, 9.9 million pounds.

Holdings of dark air-cured, totaling 58.4 million pounds, were lower by 4.6 million. Inventories were: One Sucker, 36.3 million; Green River, 18.5 million; and Virginia sun-cured, 3.6 million pounds.

CIGAR LEAF STOCKS

Domestic leaf continues decline.
Imported leaf slightly higher.

Inventories of all domestic and Puerto Rican cigar tobacco totaled 188.7 million pounds on April 1, 1972. This was a drop of 24.1 million pounds. Holdings of foreign-grown cigar leaf were down 17.2 million pounds to 86.5 million.

Cigar filler leaf accounted for the bulk of the declines. Pennsylvania seed leaf stocks at 88.7 million were down 20.0 million; Ohio, 9.4 million pounds--down 0.4 million; and Puerto Rican, 11.5 million--down 2.5 million pounds.

Cigar binder stocks totaled 57.3 million pounds--up 2.2 million from last year. Connecticut Valley Broadleaf inventories were 5.9 million; Connecticut Valley Havana Seed, 2.7 million; Southern Wisconsin, 24.8 million; and Northern Wisconsin, 23.8 million pounds.

Shade-grown cigar leaf stocks declined 3.5 million to 21.7 million pounds. Connecticut Valley stocks of 14.0 million were down 1.3 million pounds and Georgia-Florida was down 2.2 million pounds at 7.7 million.

Stocks of Cuban leaf had shrunk to 0.5 million pounds by April 1. Philippine Islands were down 12.6 million pounds at 33.4 million; Indonesian stocks were 4.4 million; Brazil, 6.3 million; Colombia, 6.8 million; Dominican Republic, 12.7 million; Paraguay, 5.4 million; Mexico, 6.1 million; and other foreign-grown, 11.7 million pounds.

STOCKS OF TOBACCO SHEET

Stocks of leaf represented in inventories of "tobacco sheet" totaled 29.4 million pounds (reported weight) compared with 33.1 million on the previous April 1. Of the total in "sheet" this April, 27.6 million was for use in cigarettes and smoking tobacco, and 1.8 million for cigar binder and wrapper.

1/ Types 11-37 are reported on the basis of packed weight.
2/ Farm-sales-weight equivalent based on unstemmed sweated weight factor.
3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales-weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.
